---

I've called Brad Odle (Regional Wildlife Supervisor, Hays, KS) whose phone number is on the I020607 report (785-628-8614). His records only go back to 2008, but he has a memo from Ron Klataske saying the badger he was involved with was fairly fresh as of 1/29/2009. He concludes it must have died 1/27/2009-1/28/2009. He is the supervisor over the wildlife people that cover the Logan County, KS area and is sure the badger came from Logan County. He says that is the only badger kill he has records for.

I've updated the IDS record with this information, though I've left a range between the start and end dates for the incident, since there was also a variety of wildlife found dead there in that general 2009 time period.
